MSDS: TUMBLING COMPOUND MP-103-F

Section 1: Identification of substance

MP-103-F

Tumbling compound powder

Section 2: Hazards Identification

Classification of the substance or mixture

HAZARDOUS CHEMICAL according to the Worksafe Australia criteria.

Not classified as Physical Hazards.

Not classified as carcinogen.

Not classified as reproductive toxin.

Not classified as causing organ damage from repeated exposure.

Health Hazards: Serious Eye Damage/Eye Irritation: category 2A

Toxicity: Aquatic Toxicity Category 4,

H413: May cause long lasting harmful effects to

Aquatic life

Body contact: Moderate, may cause irritations and rash.

Reactivity: no

Chronic: no

Precautionary statement:

P273: Avoid release to the environment

P280: Wear protective gloves clothing eye protection and face protection

Precautionary statement:

If in eyes, rinse cautiously with water for several times. Remove contact lenses. Continue rinsing.

If eye irritation persists, get medical advice.

Precautionary statement: Wash thoroughly after handling P264.

Avoid release to the environment P273.

Wear protective PPE P280.

Section 3 Composition

Tetrasodium Pyrophosphate less than 50%.

Alcohols, C12-15, Ethoxylated

Section 4 First Aid Measures

Eye contact: rinse with water

Skin contact: Flush skin and hair with running water

Inhalation: remove person from contaminated area

Ingestion: Immediately give a glass of water

If symptoms persist, seek medical attention

Section 4: Transportation

Transport hazard class: not allocated

Section 5: Firefighting measures

There is no restriction on the type of extinguisher which may be used.

Substance is not flammable.

Not considered a significant fire risk, may emit corrosive fumes.

Section 6 Accidental release measures

Personal precautions , protective equipment and emergency procedures

In case of spill, use dry clean up procedures and avoid generating dust,avoid this product entering drains and waterways.

Disposal: landfill

Section 7 Handling and Storage

Avoid personal contact and inhalation.

Wear protective equipment and clothing

Prevent concentration in hollows and sumps

Storage incompatibility: incompatible with oxidising and reducing agents. Avoid contact with reducing agents such as hydrides.

Section 8 Exposure controls

Eye protection gear, face protection gear, skin protection gear, hand protection gloves, overalls, PVC apron, barrier cream, P2 dust masks. Need good ventilations.

Section 9 Physical and chemical properties

Solid

Section 10 Stability and Reactivity

Stable and not radio active.

Section 11 Toxicological information

The material is not thought to produce adverse Health effects. Nevertheless good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in a occupational setting.

Section 12 Other information

Poison schedule: a poison schedule number has not been allocated to this product using the criteria in the Standard for a Uniform Scheduling of Medicines and Poisons(SUSMP).
